The following are some of the most common installation problems. For more information and troubleshooting for problems with your WordPress installation, check out FAQ Installation and FAQ Troubleshooting. I see a directory listing rather than a web page. The web server needs to be told to view index.php by default.

How to install WordPress | WordPress.org
Thanks for choosing OpenDNS! To get started, you'll need to set up one or more of your devices to use OpenDNS's DNS nameservers. For instructions on how to do this, choose your device type from one of the categories below.

Setup Guide | OpenDNS
For this assignment students need to create a subject guide on a topic of their choice, using a virtual medium (such as Google sites) to display the guide. This site will replace the traditional in-person instruction session by using screen shots, tutorials, collaborative knowledge-sharing and encouraging active learning to enable students to create their first Google site.

Google Site Setup Guide
Setup Guide RTX Voice creates a virtual device on your system, and it is this virtual device that we want to use in your voice chat apps to denoise background noise from chat only, and not from your general Windows audio (as it would denoise unwanted audio feeds, like YouTube videos, Spotify music, or game audio).

NVIDIA RTX Voice: Setup Guide
For most languages, the language tag is pretty easy to determine. The organization, W3C, that makes the standards that the Web relies on, has a guide to Choosing a Language Tag. Line 3 opens up the "head" of the web page—this is a block of information about the page that helps the browser process it properly.
