Curriculum / Math

The students will 1. Solve linear equations or equations that lead to linear equations. 2. Solve quadratic equations using factoring, completing the square, and quadratic formula. 3. Perform the four basic operations on complex numbers. 4. Solve quadratic equations in the complex number system. 5.

Objectives Methods Resources Assessment

Saxon originally included Geometry in both Algebra 1 and Algebra 2, so that students have a good understanding of Geometry by the time they arrive at Advanced Mathematics. In the 4th edition books, the new publisher removed all references to Geometry from the Algebra books and slapped a Geometry book in between the Algebra books.
