This invaluable practitioner guide and text shows how cognitive-behavioral interventions can help people weather situations of extreme stress and build needed skills for the future. Leading authorities describe effective, time-efficient approaches to managing different types of crises: those related to particular psychological problems, such as panic disorder, suicidal depression, and personality disorders; medical crises; child and family crises; and environmental and situational crises, including large-scale traumatic events. Vivid case material illustrates what the interventions look like in action and how to tailor them to individual clients' needs.

As a result of the growing amount of acute crisis events portrayed in the media that impact the lives of the general public, interest in crisis intervention, response teams, management, and stabilization has grown tremendously in the past decade. However, there exists little to no literature designed to give timely and comprehensive help for crisis intervention teams. This is a thorough revision of the first complete and authoritative handbook that prepares the crisis counselor for rapid assessment and timely crisis intervention in the 21st century. Expanded and fully updated, the Crisis Intervention Handbook: Assessment, Treatment, and Research, Third Edition focuses on crisis intervention services for persons who are victims of natural disasters, school-based and home-based violence, violent crimes, and personal or family crises. It applies a unifying model of crisis intervention, making it appropriate for front-line crisis workers-clinical psychologists, social workers, psychiatric-mental health nurses, and graduate students who need to know the latest steps and methods for intervening effectively with persons in acute crisis.

This practical nuts-and-bolts guide provides readers with the skills necessary to handle any crisis situation. The book utilizes the comprehensive ABC Model of Crisis Intervention, which can be used as effectively for day-to-day interactions as for emergency situations. A GUIDE TO CRISIS INTERVENTION, 5th Edition addresses such crises as drug abuse, secondary PTSD, crisis worker burnout, AIDS, suicide, death and dying, Alzheimer's, and victimization and abuse.
