This book constitutes the refereed proceedings of the 10th International IFIP WG 2.13 Conference on Open Source Systems, OSS 2014, held in San José, Costa Rica, in May 2014. The 16 revised full papers and 16 short papers presented together with 5 poster papers were carefully reviewed and selected from 61 submissions. They have been organized in the following topical sections: open source visualization and reporting; open source in business modeling; open source in mobile and web technologies; open source in education and research; development processes of open source products; testing and assurance of open source projects; and global impact on open source communities and development. The last section consists of five case studies and demonstrations of open source projects.

In a not-so-long-ago time, on an army base in rural Czechoslovakia, the draffees of the Seventh Tank Battalion gird themselves for the inevitable war with America by practicing tank manoeuvres (or faking them), studying Russian texts (with horror novels tucked inside), and singing patriotic songs (with refreshing new lyrics). Among them is Tank Commander Danny Smiricky, looking forward to discharge and trying to stay out of trouble in the meantime—not an easy task when he’s torn between two irresistible women, and surrounded by a boisterous and hilariously independent-minded tank crew. But the greatest danger to Danny is his politically correct major, a tiny termagant known as the Pygmy Devil. And on the eve of Danny’s discharge, disaster looms... Behind the comedy of his exuberantly lustful tale lies a savage parody of life under foreign occupation.

The official report that has shaped the international debate about NSA surveillance "We cannot discount the risk, in light of the lessons of our own history, that at some point in the future, high-level government officials will decide that this massive database of extraordinarily sensitive private information is there for the plucking. Americans must never make the mistake of wholly 'trusting' our public officials."—The NSA Report This is the official report that is helping shape the international debate about the unprecedented surveillance activities of the National Security Agency. Commissioned by President Obama following disclosures by former NSA contractor Edward J. Snowden, and written by a preeminent group of intelligence and legal experts, the report examines the extent of NSA programs and calls for dozens of urgent and practical reforms. The result is a blueprint showing how the government can reaffirm its commitment to privacy and civil liberties—without compromising national security.

Anne Boleyn, the second wife of Henry VIII, caused comment wherever she went. Through the chronicles, letters and dispatches written by both Anne and her contemporaries, it is possible to see her life and thoughts as she struggled to become queen of England, ultimately ending her life on the scaffold. Only through the original sources is it truly possible to evaluate the real Anne.

The Great Gatsby is a 1925 novel written by American author F. Scott Fitzgerald that follows a cast of characters living in the fictional town of West and East Egg on prosperous Long Island in the summer of 1922. The story primarily concerns the young and mysterious millionaire Jay Gatsby and his quixotic passion and obsession for the beautiful former debutante Daisy Buchanan. The Great Gatsby explores themes of decadence, idealism, resistance to change, social upheaval, and excess, creating a portrait of the Jazz Age or the Roaring Twenties that has been described as a cautionary tale regarding the American Dream. Set on the prosperous Long Island of 1922, The Great Gatsby provides a critical social history of America during the Roaring Twenties within its fictional narrative. That era, known for profound economic prosperity, the development of jazz music flapper culture, new technologies in communication (motion pictures, broadcast radio, recorded music) forging a genuine mass culture; and bootlegging, along with other criminal activity, is plausibly depicted in Fitzgerald's novel. Fitzgerald uses many of these societal developments of the 1920s that were to build Gatsby's stories from many of the simple details like automobiles to broader themes like Fitzgerald's discreet allusions to the organized crime culture which was the source of Gatsby's fortune. Fitzgerald depicts the garish society of the Roaring Twenties by placing the book's plotline within the historical context of the era.

Safety and Reliability – Safe Societies in a Changing World collects the papers presented at the 28th European Safety and Reliability Conference, ESREL 2018 in Trondheim, Norway, June 17-21, 2018. The contributions cover a wide range of methodologies and application areas for safety and reliability that contribute to safe societies in a changing world. These methodologies and applications include: - foundations of risk and reliability assessment and management - mathematical methods in reliability and safety - risk assessment - risk management - system reliability - uncertainty analysis - digitalization and big data - prognostics and system health management - occupational safety - accident and incident modeling - maintenance modeling and applications - simulation for safety and reliability analysis - dynamic risk and barrier management - organizational factors and safety culture - human factors and human reliability - resilience engineering - structural reliability - natural hazards - security - economic analysis in risk management Safety and Reliability – Safe Societies in a Changing World will be invaluable to academics and professionals working in a wide range of industrial and governmental sectors: offshore oil and gas, nuclear engineering, aeronautics and aerospace, marine transport and engineering, railways, road transport, automotive engineering, civil engineering, critical infrastructures, electrical and electronic engineering, energy production and distribution, environmental engineering, information technology and telecommunications, insurance and finance, manufacturing, marine transport, mechanical engineering, security and protection, and policy making.
