The HMA/EMA joint Big Data Steering Group supersedes the Big Data Task Force and covers the following tasks: Making proposals to HMA and EMA MB for the prioritisation and planning of actions to implement the recommendations from the Task Force report. - Oversee those actions that the Network decides to run.

Heads of Medicines Agencies: HMA/EMA Joint Big Data ...

The HMA/EMA Task Force on Big Data defined big data as "extremely large datasets which may be complex, multi-dimensional, unstructured and heterogeneous, which are accumulating rapidly and which may be analysed computationally to reveal patterns, trends, and associations. In general, big data sets require advanced or specialised methods to provide an answer within reliable constraints".
