The book presents a comprehensive study of important topics in Mechanics of pure and applied sciences. It provides knowledge of scalar and vector in optimum depth to make the students understand the concepts of Mechanics in simple, coherent and lucid manner and grasp its principles & theory. It caters to the requirements of students of B.Sc. Pass and Honours courses. Students of engineering disciplines and the ones aspiring for competitive exams such as AIME and others, will also find it useful for their preparations.

Includes publications received in terms of Copyright Act no. 9 of 1916.

Prepare students for assessment and further professional development with a wealth of contemporary case studies from around the world, referencing key trends. · Discover how to integrate sustainability and environmental improvements into kitchens and eating spaces, helping to increase energy conservation and boost your green credentials. · Harness the power social media and e-marketing to proactively grow your business, online visibility and engagement. · Ensure best practice is followed where food allergies and intolerances are concerned, so you can be confident you are providing a safe experience for all customers. · Develop your understanding of nutrition and culinary medicine with a unique contribution from Elaine Macaninch, a director of Culinary Medicine UK and the co-founder of the Education and Research in Medical Nutrition Network (ERimNN) · Plan for commercial success with clear coverage of financial aspects of food and beverage management, personal development and people management skills.
