We have Paul Auster writing about his protagonist Sidney Orr, a writer who is working on a manuscript about a man named Nick Bowen who, in this book, is focused on reading the writings of Sylvia Maxwell, an author who has written Oracle Night. Auster manages to intertwine all of these elements and blend them into one engaging plot, and, at points, the plot of the writings bleed into the real life aspects of the story.

Segment A of Oracle night was a very interesting segment, it was like an introductory segment where we got introduced to the main characters, and to Austers style of writing. The first thing that interested me in segment A was Paul Austers style of writing. Auster did not divide his novel into chapters but kept a continuous flow of ideas.

Paul Auster: Oracle Night. Whether Sidney Orr is, at least partially, Paul Auster is open to question, not least as there is a character called John Trause, Trause, of course, being an anagram of Auster. Nevertheless Orr is a writer, who likes exploring New York and, at least during the course of this novel, is a not very successful writer.
