This book is closely tied to the new curriculum, with extracts from the curriculum itself and lesson plans and teaching ideas for every area. This book will equip non-specialists to confidently deliver engaging and well-informed lessons, that account for the changes in the National Curriculum. This is a very practical and easy to apply programme for teaching Spanish either in your own classroom, or to implement across the school in the role of a co-ordinato

The complete and integrated IELTS preparation course, providing comprehensive exam skills development and graded practice.

Written by experienced teachers and teacher trainers, this series offers practical teaching ideas within a clear, theoretical framework. Each title includes a photocopiable 'Task File' of training and reflection activities to reinforce theories and practical ideas presented.

This text offers a thorough analysis of how listening, speaking, reading and writing, as well as grammar and vocabulary, are tested in a range of exams, along with appropriate teaching strategies for each. Also includes a guide to all major international English language exams.

The Expert series provides rigorous exam training for high-achieving students while continuing to develop language awareness and communication skills. First Expert is an intensive course for students who are preparing for the Cambridge First Certificate in English examination and will prove to satisfy your students' practice needs and allow them to achieve their full potential.

An examination of the methods and techniques used in the analysis and design phases of Information System development. Emphasis is placed upon the application of object technology in enterprise information systems (EIS) with UML being used throughout. Through its excellent balance of practical explanation and theoretical insight the book manages to avoid unnecessary, complicating details without sacrificing rigor. Examples of real-world scenarios are used throughout, giving the reader an understanding of what really goes on within the field of Software Engineering.
