"The Global Plan of Action for Animal Genetic Resources, adopted in 2007, is the first internationally agreed framework for the management of biodiversity in the livestock sector. It

Download Free Phenotypic Characterisation

calls for the development of technical guidelines to support countries in their implementation efforts. Guidelines on the Preparation of national strategies and action plans for animal genetic resources were published by FAO in 2009 and are being

Download Free Phenotypic Cha

acterization by a series of guideline publications addressing specific technical subjects.

These guidelines on Phenotypic characterization of animal genetic resources address Strategic Priority Area 1 of the Global Plan of Action ---
"Characterization,

Download Free Phenotypic Cha inventory and

monitoring of trends
and associated risks".

They complement, in particular, the guidelines on molecular genetic characterization and on surveying and monitoring of animal genetic resources.

They have been endorsed by the Commission on

Download Free Phenotypic Cha

Genetic Resources for
Food and Agriculture.
The guidelines offer
advice on how to
conduct a well-
targeted and cost-
effective phenotypic
characterization
study that
contributes to the
improvement of
animal genetic
resources
management in the

Download Free Phenotypic Cha

context of country-level implementation of the Global Plan of Action. An overview of the concepts and approaches that underpin phenotypic characterization is followed by practical guidance on planning and implementing field work, data management and

Download Free Phenotypic Cha

data analysis. The annexes include generic data collection formats for phenotypic characterization of major livestock species, as well as a framework for recording data on breeds' production environments."--Publisher's description

ABSTRACT

Phenotypic
characterization of
indigenous chicken
ecotypes was
conducted in North

Download Free Phenotypic Cha

Wollo from January
2011 to May 2012
with the objectives of
characterizing
indigenous chicken
and their production
system.

Simultaneously,
identification of
development
intervention for
improved utilization
of chicken genetic
resources was also

Download Free Phenotypic Cha

identified. In the first part of data collection, one focused group discussion per agro-ecological zones was held. Then, administration of well-structured questionnaire and morphometric measurement were employed. Measured quantitative traits of

Download Free Phenotypic Cha

chicken among the three altitudes were analyzed by linear model of SAS 2002 for male and female chickens separately. Subsequently, mean value of each traits were compared using Tukey ' s mean comparison method. Multivariate analysis of principal component analysis,

Download Free Phenotypic Cha racterization

discriminant, step-
wise discriminant and
clustering analysis

was performed by
SPSS 19.0 for male
and female chicken
ecotype separately.
Nechi (17.6%), Tikur
(12.6%) and Key
(10.8%) plumage
colour were found
dominantly all over
the study area.

Download Free Phenotypic Cha

Findings of the focus group discussion revealed that there were morphologically differences among chickens of high altitude, mid altitude and low altitude study areas. Similarly, findings from the semi-structured questioner revealed that indigenous chicken ecotypes are

Download Free Phenotypic Cha

And Production
Performance Of

dual-purpose. The critical constraints of scavenging chicken production were disease (60.13%) predators (20.59%) and feed shortage (19.28%). Number of egg lay/clutch (37.91%) and plumage colour (37.58%) were the major preferred trait by the farmers in the

Download Free Phenotypic Cha

study area. For qualitative and quantitative study, 715 sample chickens were recorded by category of agro-ecology. Linear measurements on six traits were taken from 210 mature male and 305 mature female chickens. The overall mean body weight of indigenous

Download Free Phenotypic Cha

male and female

chickens was

1500.97gm and

1253.36gm

respectively. The

overall age at sexual

maturity for male and

female was $24.25 \pm$

0.04 and 23.84 ± 0.05

weeks respectively.

There was highly

significant difference

Worldwide, the production of bioethanol is derived through first-generation technology, where plants, vegetables, and cereals, that have high levels of sucrose, are fermented by yeast. Brazil, for the production of bioethanol from

Download Free Phenotypic Cha

sugarcane, is among the world's leading producers. The process for bioethanol production is a complex that involves a variety of environmental factors, resulting in different phenotypic profiles of strain used. It has been evidenced that the

Download Free Phenotypic Cha

interaction between environmental factors and microorganism can influence in the identification of different characteristics of *Saccharomyces cerevisiae*. Also, the bioethanol is developed by the second and third generations, and new

Download Free Phenotypic Cha

yeast strains may also contribute to the feasibility of production.

Successful performance of fermentation depends on the ability of the yeast to deal with a number of factors that occur during the fermentation, such as concentration of

The State of the
World's Biodiversity
for Food and
Agriculture presents
the first global

Download Free Phenotypic Cha assessment of biodiversity for food and agriculture worldwide.

Biodiversity for food and agriculture is the diversity of plants, animals and micro-organisms at genetic, species and ecosystem levels, present in and around crop, livestock, forest and

Download Free Phenotypic Cha

aquatic production systems. It is essential to the structure, functions and processes of these systems, to livelihoods and food security, and to the supply of a wide range of ecosystem services. It has been managed or influenced by farmers, livestock

Download Free Phenotypic Cha

keepers, forest dwellers, fish farmers and fisherfolk for hundreds of generations.

Prepared through a participatory, country-driven process, the report draws on information from 91 country reports to provide a description of the roles and importance of

Download Free Phenotypic Cha

biodiversity for food and agriculture, the drivers of change affecting it and its current status and trends. It describes the state of efforts to promote the sustainable use and conservation of biodiversity for food and agriculture, including through the development of

Download Free Phenotypic Cha

supporting policies,
legal frameworks,
institutions and
capacities. It
concludes with a
discussion of needs
and challenges in the
future management
of biodiversity for
food and agriculture.
The report
complements other
global assessments
prepared under the

Download Free
Phenotypic Cha
racterization
auspices of the
Commission on
Genetic Resources for
Food and Agriculture,
which have focused
on the state of
genetic resources
within particular
sectors of food and
agriculture.

Animal genetic
resource diversity
underpins the supply

Download Free Phenotypic Cha

livestock products
and services across a
wide range of
production
environments. It
promotes resilience
and serves as a basis
for adapting livestock
management to
changing conditions.
It is vital to
livelihoods of many
of the world ' s poor
people. It can

Download Free Phenotypic Cha

contribute to the
delivery of ecosystem
services such as
landscape

management and the
maintenance of
wildlife habitats.

However, it is often
undervalued,
underused and under
threat. This report
updates the global
assessment provided
in the first report on

Download Free Phenotypic Cha

The State of the
World ' s Animal
Genetic Resources for
Food and Agriculture,
published in 2007. It
focuses particularly
on changes that have
occurred during the
period since the first
report was published.
It serves as a basis for
a review, and
potential update, of
the Global Plan of

Download Free Phenotypic Cha

Action for Animal
Genetic Resources,
which since 2007 has
provided an agreed
international
framework for the
management of
livestock biodiversity.
Drawing on 129
country reports, it
presents an analysis
of the state of
livestock diversity,
the influence of

Download Free Phenotypic Cha

livestock-sector
trends on the
management of
animal genetic
resources, the state
of capacity to
manage animal
genetic resources,
including legal and
policy frameworks,
and the state of the
