Intermediate Environmental Economics has established itself as one of the field's most authoritative texts, as well as one of the more challenging. Thus, this book concentrates only on environmental economics-problems of pollution of earth, air, and water-with an emphasis on regulation and private-sector anti-pollution incentives, and coverage of international examples.

Nonny Frett understands the meaning of the phrase "in between a rock and a hard place" better than any woman alive. She's got two mothers, "one deaf-blind and the other four baby steps from flat crazy." She's got two men: a husband who's easing out the back door; and a best friend, who's laying siege to her heart in her front yard. And she has two families: the Fretts, who stole her and raised her right; and the Crabtrees, who won't forget how they were done wrong. Now, in *Between*, Georgia, a feud that began the night Nonny was born is escalating and threatening to expose family secrets. Ironically, it might be just what the town needs...if only Nonny weren't stuck in between.
