"In THE ACCIDENTAL SUPERPOWER, Peter Zeihan has explored a contemporary version of Napoleon's dictum that the power of countries derives from their geography. He brings a refreshingly novel and thought-provoking approach to understanding the rise of a U.S.-led global order, current threats, and why the U.S. will probably ride out the future better than others."--

The Accidental Superpower: The Next Generation of American ...

To summarize: All is determined by geography, demographics and energy. America is uniquely positioned by excelling in all three and thus becomes the accidental superpower. America withdraws from everyone else and the world dissolves into a Hobbesian nightmare of wars and instability. Vast oversimplification already being proven wrong by events.
