UNICEF Yemen

Yemen is the largest humanitarian crisis in the world, with more than 24 million people – some 80 per cent of the population – in need of humanitarian assistance, including more than 12 million children. Since the conflict escalated in March 2015, the country has become a living hell for the country's children.

Five Years of War + Pandemic Sends Yemen's Malnutrition ...

Appeal highlights. Nearly five years after the start of the conflict, Yemen remains the largest emergency globally, with 24 million people out of the population of 30.5 million in need of humanitarian assistance. The conflict has left 3.6 million people, including 2 million children, internally displaced, and at least 500,000 public sector workers have been without salaries for three years.
